

## Reviewer's report for a Monograph

Monograph title: .....

Author: .....

### I. General opinion about the Monograph

### II. Specific questions

1. Is the Monograph worth publishing and suitable for the scope of the GeoPlanet Book Series? (yes/no)
2. Does the Monograph contain a scientifically grounded material? (yes/no)
3. Is it organized and presented in a clear manner? (yes/no)
4. Are all the figures and tables necessary? (please be specific)
5. Are the references quoted properly and are they all necessary? (please be specific)
6. Does it need improvement in grammar and syntax (please note that the corrections may be made by the language editor, as long as the text is generally understandable)? (yes/no)
7. I am willing to be identified to the authors (yes/no)
8. I am willing to read a revised version (recommended in case of major revision)

### III. Recommendation (please mark the appropriate)

- The Monograph can be accepted in its present form.
- The Monograph can be accepted after minor revision.
- A major revision is needed and the decision will be made afterwards.
- The Monograph cannot be accepted for publication.

### IV. Declaration

I declare that there is no conflict of interest that would affect my decisions in relation to my opinion specified above.
