The Institute of Geophysics of the Polish Academy of Science,
in collaboration with the IAHR Technical Committee on Experimental Methods and Instrumentation,
and the IAHR Poland Young Professional Network

INVITE YOU TO THE WEBINAR:

EXPERIMENTAL METHODS AND LABORATORY INSTRUMENTATION IN HYDRAULICS

Why attending:

- to develop best practices and methods that cover all aspects of experimental hydraulics, from setup of the instrumentation to data analysis;
- to share laboratory experience and receive feedback from fellow experimentalists;
- to make lab instrumentation relevant and accessible;
- to widen your academic and industrial network.

13-15 APRIL 2021

ON-LINE

FREE REGISTRATION

EVERY LAB TECHNIQUE UNDER ONE (VIRTUAL) ROOF !

Join internationally recognized experts from academia and the industry for an interactive discussion on best practices and current and future challenges of hydraulic laboratory measurements, from established methods to innovative approaches, all with a common goal: measuring flows with the highest accuracy.
